Acting Principal  
Louis Franc

**Acting Principal's Report**

This week we have been using some of the excellent new literacy resources we have purchased. This includes some new software which means the text can be used on our smart TV. You can see in the picture how valuable this resource will be to improve student learning outcomes.

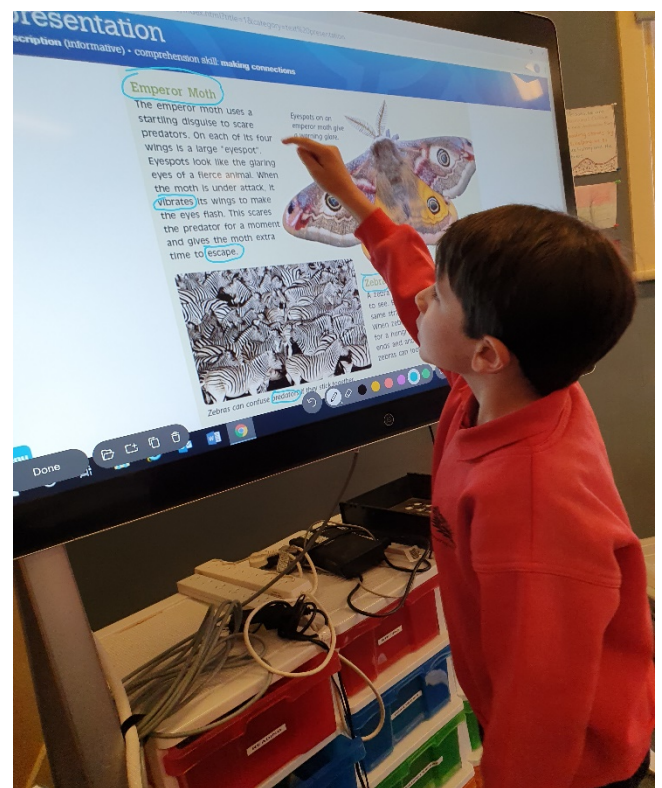

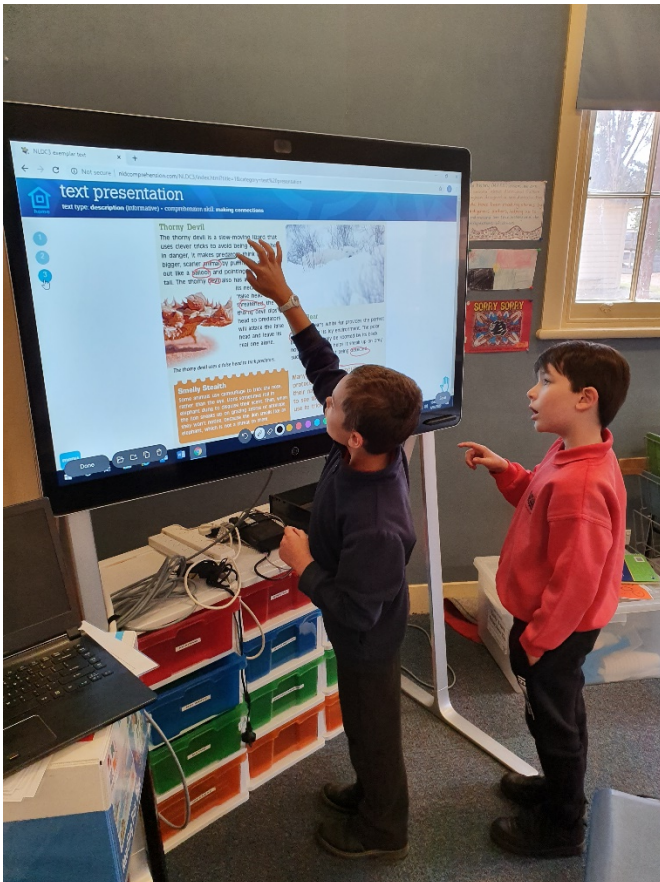

We are excited about our upcoming Integrated studies topic 'At the Beach'. We are going to be learning about sea creatures and life at the beach. This unit will culminate with an excursion to Queenscliff to visit the Aquarium.

Another exciting event is the upcoming Easter Eggstravaganza. This night will involve a BBQ tea, colouring competition, Easter egg hunt and Easter Hamper raffle. This is a night for the whole family and will be conducted in our beautiful playground.

Xavier and Sylvan in action completing a cold write for the Pyrenees Cluster. We also have Beetroot, Pak Choi, Snowpeas and Carrot seedlings in the background to be planted.

Great Place. Great School. Great Education.
